Cape Town | michael.ndlovu@email.com | 071 222 3333

Recent university graduate with a solid academic foundation in programming and problem-solving. Eager to begin a career as a software developer and apply my analytical thinking skills.

## Education

---

### BSc Computer Science

*University of Cape Town | 2021 - 2024*

- Completed coursework in software engineering, algorithms, and application development.
- Built basic academic projects focusing on problem-solving.

## Technical Skills

---

- **Programming:** Python, Java, C++.
- **Web Development:** HTML, CSS.
- **Soft Skills:** Strong communication, presentation skills, analytical thinking.

## Experience

---

### IT Support Intern

*Tech Solutions Ltd | Jan 2025 - Present*

- Assist staff with hardware and software issues.
- Document support tickets and communicate effectively with end-users.

*\* Note: I do not currently have commercial experience with SQL, Git, or Python frameworks (Django/Flask), but I am a fast learner.*
